

# How important is energy in construction/renovation plans?

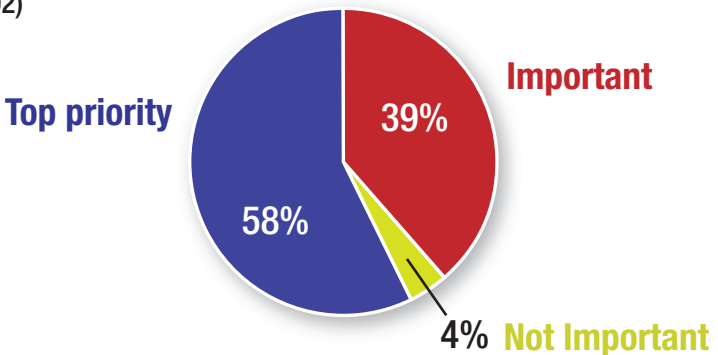

Data centers completed in past three years:  
(n=110)

Data centers now in design or construction:  
(n=169)

Data centers expected in next three years:  
(n=102)

**Top priority** — Long-term savings justified spending more to purchase energy efficient equipment and systems

**Important** — A priority, but long-term savings didn't justify spending more to purchase energy efficient equipment and systems
