

# TOP 10 BENEFITS FOR HAVING A PRE-LOSS AGREEMENT WITH A RESTORATION COMPANY

- 1 PRIORITY EMERGENCY RESPONSE**

In a widespread disaster, restoration companies are overwhelmed, and equipment can become scarce. A pre-loss agreement ensures that your business is prioritized for immediate service, reducing downtime and damage.
- 2 FASTER RESTORATION & RECOVERY**

With pre-established protocols and site familiarity, restoration teams can mobilize quickly, accelerating the cleanup and repair process to minimize business interruption.
- 3 MINIMIZED FINANCIAL LOSS**

Rapid response and reduced downtime help limit revenue loss, prevent secondary damage, and reduce insurance claim costs.
- 4 BUSINESS CONTINUITY PLANNING**

A pre-loss agreement often includes a business continuity plan, which outlines how to maintain operations during and after a disaster (e.g., remote work, equipment protection).
- 5 PREPAREDNESS WHEN NEEDED MOST**

When a pipe breaks in your building at 2am, it is easier to call your account representative than find someone on Google and wait hours to hear back or get someone with inadequate capabilities.
- 6 REGULATORY & INSURANCE COMPLIANCE**

Helps ensure that your business meets local safety regulations and is better positioned for insurance claims with documented pre-loss conditions.
- 7 FAMILIARITY**

Having a partner that knows your people, building layout, and your internal processes helps to make communication seamless.
- 8 PRE-DETERMINED PRICING**

Establishing pricing, payment terms, and do-not-exceed amounts in advance of a disaster saves money and avoids conflict.
- 9 SCOUT TEAMS DURING CAT SITUATIONS**

Scout teams are evaluating your properties and will communicate in 24 hours or less if your building sustained damage or not after a hurricane. This is especially helpful when mandatory evacuations are in place and communications are disabled.
- 10 NATIONAL REACH**

Selecting a company with national reach and proximity to your locations provides a single point of contact across your many facilities.
